GIFT CARDS, BACKPACKS & MORE TO PREPARE STUDENTS FOR SUCCESS

COVID-19 and uncertainty about the learning environment have been difficult, but our donors were up for the challenge! Last year we received positive feedback from families who greatly appreciated the flexibility gift cards provided. They were able to purchase exactly what they needed, including new items on their lists like webcams! Many families also appreciate receiving backpacks already filled with essential supplies so they don't have to visit the store. In response, we took a hybrid approach to best serve local families in need.
